Problem Solving

Communication & Collaboration

STRENGTHS

Leadership

Organization

Self-control

Empathy

Friendliness

PROFILE

Junior Full Stack Developer with a recently completed higher degree (DAW) in Web Application Development. Hands-on experience across the full stack — JavaScript/TypeScript, PHP, React, Next.js, Node.js and SQL/NoSQL databases — built through real client projects, from WordPress-based company directories to custom Next.js and Supabase applications. Comfortable working independently, debugging complex systems, and coordinating with non-technical stakeholders.

WORK EXPERIENCE

FEB 2026 — PRESENT

Web Application Development

BCIN · Reactiva Badalona

- Maintain and debug a WordPress company directory used by ~11,000+ businesses, resolving JS/PHP logic and data integrity issues.
- Support internal administration tasks for the business convention venue.

JUN 2024 — AUG 2024

IT Technician & Computer Assembly (Internship)

e-Corp Sistemas

- Assembled, configured and diagnosed desktop computers and hardware for clients.
